

# GROUND-MOUNTING SYSTEM

## NORTH MODUL EXTENSION

**THE SECURE BASIS**  
FOR SOLAR PARKS

☑ QUICK ASSEMBLY

☑ VARIABLE DESIGN

☑ LOW MATERIAL COST

☑ WORLDWIDE SHIPPING

### TECHNICAL DATA

Orientation	North
Modul series	1 vertical   x horizontal
Materials	Steel, aluminium, stainless steel
Coating	Hot-dip galvanized to EN ISO 1461 / Magnelis®
Static	System static to Eurocode   Wind tunnel optimized   FEM simulation System statics according to country-specific regulations and standards possible if required
Foundation variants	Boldet

### SUPPORT / CONTACT

On request, you will receive comprehensive support for your solar project. In addition to a soil survey, project-related system adaptations are possible based on regional data such as terrain conditions, snow and wind load zones.

If you have any questions about processing and the technical properties of the ground-mounting systems, our customer service team will be happy to provide you with technical support.
